# Animal Shelter

## Building Features

Animals need shelter from the elements. Whether it's snow, hail, rain, or extreme heat, in order for your animal's health, you will want to provide shelter for it. Why not get a run-in shed where your horses can catch a little shade, escape flies and get out of harsh wind or pounding rain? The beauty of the run-in shelter is its simplicity. We can install a basic, attractive shed that serves your animals needs, streamlines your chores and doesn't cost a fortune. Or we offer options that treat your horse to the equine version of a 4 star hotel. We will work with you to provide you with what you need for your animal's comfort and health.
